

MBA 665 Module Eight Small Group Discussion Rubric

Your active participation in the discussion topics is essential to your overall success this term. Discussion questions are designed to help you make meaningful connections between the course content and the larger concepts and goals of the course. These discussions offer you the opportunity to express your own thoughts, ask questions for clarification, and gain insight from your classmates' responses and instructor's guidance.

For this small group discussion, submit a draft of recommendations for your final project and conduct a peer review. Your instructor will assign you to a small group and establish a discussion topic for each group. Post a copy of the recommendations that you intend to make in your final project submission. To get the most out of this peer review, your recommendations should be in as close to final form as you can make them.

In responding to at least two of your peers, provide constructive peer review featuring a detailed discussion of the strengths of the paper as well as areas that could be improved. Ask questions designed to help your peers reflect upon their recommendations and deepen their analyses and support. Keep the tone of your comments positive and constructive, and review the Recommendations section of the Final Project Guidelines and Rubric document before beginning your review to help guide your response.
