

IT 241: Case Study One Guidelines and Rubric

Overview: This case study analysis is the first of two formative tasks that will support your understanding of the key course concepts of human behaviors that could potentially cause a security threat. These case study analyses will inform your approach for the milestone tasks and the final project.

Prompt: Identify three current security breaches. Using presentation software, create a slide for each of the breaches. In addition to indicating when each breach occurred, address the following critical elements on each slide:

- The **data** that was compromised
- The **individuals and organizations** that were impacted
- The **human factors** that impacted the breach and whether the **suspects** were identified
- What is being done to **mitigate** future occurrences
- What **damage control measures** the impacted organization is providing regarding the breach

Guidelines for Submission: Include a title slide. Include at least one slide for each of the three breaches. Include all of the critical elements for each breach. On each slide, use the commenting feature to describe each breach in two to three paragraphs.

Critical Elements	Proficient (100%)	Needs Improvement (75%)	Not Evident (0%)	Value
Compromised Data	Accurately describes the data that was compromised	Does not sufficiently describe the data that was compromised	Does not describe the data that was compromised	15
Individuals and Organizations	Accurately and sufficiently describes the individuals and organizations that were impacted	Does not sufficiently describe the individuals and organizations that were impacted	Does not describe the individuals and organizations that were impacted	20
Human Factors and Suspects	Accurately and sufficiently assesses the human factors that impacted the breach and indicates whether the suspects were identified	Does not sufficiently assess the human factors that impacted the breach or indicate whether the suspects were identified	Does not assess the human factors that impacted the breach or indicate whether the suspects were identified	20
Mitigation Efforts	Sufficiently provides concrete examples of the efforts being undertaken to mitigate future occurrences	Does not sufficiently provide concrete examples of the efforts being undertaken to mitigate future occurrences	Does not provide examples of the efforts being undertaken to mitigate future occurrences	20
Damage Control Measures	Accurately and sufficiently describes the damage control measures	Does not sufficiently describe the damage control measures	Does not describe the damage control measures	15
Articulation of Response	Submission has no major errors related to citations, grammar, spelling, syntax, or organization	Submission has major errors related to citations, grammar, spelling, syntax, or organization that negatively impact readability and articulation of main ideas	Submission has critical errors related to citations, grammar, spelling, syntax, or organization that prevent understanding of ideas	10
Earned Total				100%
