

### COM 320 Module One Journal Guidelines and Rubric

**Overview:** In this course, the journal will be used for reflection. **Journal activities in this course are private between you and the instructor.** For this journal task, you will locate and review commercial advertisements for the absence or presence of cultural stereotypes and/or generalizations in order to critically assess the potential for media bias.

**Prompt:** Review Chapters 1 and 2 in your textbook and then locate two advertisements that use culture within their message. You may use the examples offered in the video resources listed in this module’s resources (Group A or Group B), or you may seek out other 30-second video examples. One of your examples should demonstrate cultural bias (e.g., stereotypes, generalizations, negative representation), and one should promote a more positive image. Next, in a three- to four-paragraph journal assignments, address the following:

- **Messages:** How are these two advertisements different in the way they present culture to the audiences? What stereotypes or generalizations drive the first message, and what potential biases might the second message be aiming to dispel? Use examples from the videos to support your discussion.
- **Challenges:** In what ways do these messages pose challenges to the viewers?
- **Improvements:** How can a message be improved or strengthened?
- **Intercultural Competency/Media Literacy:** How has this activity informed your own intercultural competency and media literacy?
- **Cultural Sensitivity:** Be sure to use cultural sensitivity as you write about these topics.

#### Rubric
