

PSY 636 Milestone One Guidelines and Rubric: Intervention Plan Overview

Prompt: The overview should include a brief description of a treatment plan for a diagnosis of your choice and should indicate why this diagnosis could potentially be a result of the child's or adolescent's involvement in the legal system. The paper should also explore ethical considerations when deciding the best therapeutic interventions to implement, such as individual or family therapy. As an example, a child is exhibiting self-harming behavior. The self-harming behavior started after the child was placed in a foster home. You should exhibit an evaluation based on the cultural, social, and environmental factors affecting the child. The introduction will be submitted in the form of a one- to two-page paper.

Format: The assignment should follow these formatting guidelines: 1–2 pages, double spacing, 12-point Times New Roman font, one-inch margins, and citations in APA format.
