Southern New Hampshire University

IT 600 Module Seven Journal Guidelines and Rubric

Overview: In this assignment, you will prepare for the file system analysis components of your final project.

Prompt: In your journal assignment this week, you will outline the disk capacity and usage of each drive on your computer. For Windows, execute the **dir** command or the File Explorer utility. For Linux or Mac OS X, use the [**du -h**] and [**df -h**] commands or a file management utility with a graphical user interface of your choice.

Make sure to include the following critical elements in your assignment:

1. State your operating system
2. Outline the disk capacity on your computer
3. Outline the usage of each drive on your computer

Guidelines for Submission: Submit assignment as a Word document with double spacing, 12-point Times New Roman font, and one-inch margins.

Critical Elements	Proficient (100%)	Not Evident (0%)	Value
Operating System	Operating system analyzed is identified	Operating system analyzed is not identified	10
The Disk Capacity of Your Computer	The disk capacity is outlined	The disk capacity is not outlined	40
Usage of Each Drive on Your Computer	Usage of each drive is outlined	Usage of each drive is not outlined	40
Articulation of Response	Submission has no major errors related to citations, grammar, spelling, syntax, or organization	Submission has critical errors related to citations, grammar, spelling, syntax, or organization that prevent understanding of ideas	10
		Earned Total	**100%**
